Trusted Compassionate Care

Course Overview

International Trauma Life Support (ITLS) is designed for EMS professionals, as well as ED/trauma nurses who must initially evaluate and stabilize the trauma patient.

The course is designed so participants learn rapid assessment, aggressive resuscitation packaging, and transport.

ITLS also stresses those conditions that cannot be stabilized in the field, and require immediate transport.

ITLS Core Concepts

Day 1: Lectures and Activities

- Scene size up
- Assessment and initial management
- Airway management
- Shock evaluation management
- Chest trauma
- Abdominal trauma
- Spinal trauma
- Head trauma
- Patient assessment demonstration
- Skills station rotations

Day 2: Lectures and Activities

- Extremity trauma
- Trauma in the elderly
- Burns
- Pediatric trauma
- Trauma in pregnancy
- Patient assessment stations
- Test rotations and written evaluation
